

BRYAN AID TURNS LEADERS TO CLARK

Four Democratic Senators and Congressmen Sure He'll Win If Nominated.

News of the plan for William Jennings Bryan to throw his support to Champ Clark for the Democratic nomination in the event of a deadlock has rallied many leaders to the Clark standard.

Confidence that Clark could be elected, if nominated, was expressed today by two Senators and two Congressmen. Senator Ashurst of Arizona said:

"I am very sure that Champ Clark can be elected President of the United States. If he is nominated there is not the slightest doubt in the world about his election."

Mr. Clark has for twenty-five years been a champion of progressive legislation. He was urging progressive laws when it took courage to do so. His private character is as spotless as a silver star. Millions of Americans who are now in doubt will take courage the moment Champ Clark is nominated."

Senator Culberson of Texas said: "While I am not mingling in the convention affairs at San Francisco, I can say that Champ Clark would be a great character in the White House and make a good President."

Congressman Hefflin of Alabama, who recently was nominated to succeed the late Senator Bankhead, was enthusiastic in his comment on Clark's possible nomination. He declared:

"Champ Clark would make a grand old race for the Presidency."

Congressman Oldfield of Arkansas had no doubt of the Missouriian's ability to make a winning campaign.

DELAWARE WILL BACK PRESIDENT ON LEAGUE

Complete State Delegation Arrives at San Francisco. Split on Wet Issue.

SAN FRANCISCO, June 25.—The Delaware delegation to the Democratic convention yesterday was the first complete delegation on the ground. Benjamin A. Hazel, chairman, announced that Senator Josiah Wolcott will represent Delaware on the resolutions committee. Senator Wolcott is strongly in favor of President Wilson's stand on the league of nations.

Former Senator Willard Saulsbury, a member of the delegation, stated that there is no unanimous choice for a Presidential candidate, and that several of the candidates will receive votes from Delaware.

On a prohibition plank Delaware will be split, but will be in favor of a mildly liberal prohibition plank. Senator Saulsbury believes. On the league of nations plank, the Delaware delegation will support the President.

"BUGS" BAER Remarks Upon POLITICS AND HEREDITY

By "BUGS" BAER. (Copyright, 1920.)

SAN FRANCISCO, June 25. WITH the nimble politicians leaping from convention to convention like one red ant trying to annoy two picnics, with patriotic eagle screaming with patriotic color, and with the candidates trying to look dignified and honest at the same time—the average citizen is something like a Swedish herring trying to read a Chinese laundry ticket. He doesn't know what it's all about.

HE can't read it. And if he could, it wouldn't do him any good.

THE Latin inscriptions in a drug-store bottle orchard are easy in comparison with politics. When we refer to the average citizen we mean the usual bozo who shaves six times a week and lets his whiskers grow on Sunday so he won't have to take his wife out walking.

HE is the gent who elects our Presidents to four stout years of White House cooking. He is the cuckoo who keeps this glorious tax spangled land flat wheeling along, lives from hand to mouth, and gets most of it on his vest, pays his rent when he has it, and whose idea of Heaven is being the wheel-horse on Pike's Peak.

THE only thing he knows about automobiles is that some are easier to dodge than others. His idea of roughened moving pictures is when Charles Chaplin discards the brutal custard pie for the more delicate charlotte russe.

WHERE does a yam like that grab his politics? From the political slush fund? He does not.

HE inherits 'em like the warts on his neck. His old man's politics are cut down to fit him like his grandpa's trousers. If he is born in Georgia he is a Democrat unless he happens to be a Lowden delegate. If he is hatched in Philadelphia he is a Republican. If he first sees the light of daylight saving in Nebraska he is born with a free silver spoon in his mouth.

A MAN may be a Democrat without extenuating circumstances, or he may be an habitual addict of Republicanism. But he doesn't know why. Ask a man why he voted for Wilson and he can't tell you. Ask him why he voted for Bryan and he will be ashamed to.

PLATFORM BACKS FREEDOM FOR ERIN

Tentative Draft Prepared by Democrats Maintains Silence on Wet Issue.

rate of the two-year peace-plan controversy. The second test of party solidarity will be precipitated by the prohibition issue. There is unmistakably a strong force here against any plank whatsoever on the liquor question. Liquor interests have their lobbyists planted in every hotel.

BRYAN FIGHTS FOR DRY.

Bryan and several other strong men will give battle against any attempt to moisten the party platform. The Tammany delegation is credited with having a light plank of beer plank to propose. Boss Murphy is the usual sphinx on all matters. There is a story about that Taggart of Indiana is coming in dry as a bone.

One tentative plank on the liquor question, said to be favored by certain Administration followers and others, advocates the resumption of the manufacture of light wines and beers. It approves the abolition of saloons, taking the position that they were a social and economic menace. But it holds that the Volstead act, in its present form, is something of an injustice to poor men.

It is pointed out that when prohibition became effective, the law permitted men to purchase as much liquor as their means permitted, provided it was kept in the home and consumed there.

"In this way," the tentative plank reads, "the poor may be discriminated against. Because of lack of funds they could not stack up with liquor, and therefore only the rich are now privileged to drink. If light wines and beers were permitted, the discrimination no longer would exist."

The Administration forces will favor woman suffrage without qualification, and certain elements here are strong for a plank calling for tax reductions and revisions, a bitter fight brewing on the question of tax on luxuries. Evidence today was that the convention, if it waits for the report of the resolutions committee before starting nomination balloting, will be seriously delayed, and all of the wisecracks were of the opinion that the Democratic candidates would be named in the "ree smoo" hours of the morning of the glorious Fourth of July.

ed by their leaders to "sit tight a while longer." "We are urging the members of our international unions to wait for the Labor Board's decision," said John Scott, secretary of the railway employees' department. "We are confident of a favorable award and feel the President's appeal will move the board to speed up action. Protest may be filed against the decision of the board making increases retroactive from May 1 instead of March 1, but we do not expect any trouble from the men in the internationals affiliated with the American Federation of Labor unless the board's award is unsatisfactory. We do not think the board is held up by any serious differences, and with a little more time a satisfactory agreement will be worked out, in our opinion."

B. M. Jewell, head of the department and chairman of the committee in charge of the employees' case before the board, will return to Chicago today. According to advices received here, all the other union executives have gathered there to decide on course of action.

3D PARTY WOULD HIT G. O. P., SAYS CUMMINGS

SAN FRANCISCO, June 25.—The principal effect of a third party would be to drag several States, particularly in the northwest, out of the Republican column, it was said yesterday by Homer S. Cummings, Democratic national chairman.

The blow, he declared, would fall on the Republican party, and cut in on the States where the Non-Partisan League is most active and in the Republican States of Wisconsin and Minnesota.

FINDS FREAK CORN COB; HALF IS RED, OTHER WHITE

MUSCOTAH, Kan., June 25.—A "freak" corn cob, one-half of which Nature had painted a deep red and left the other half white, was found here by Alex Wills, while selecting and shelling seed corn.

The ear was of the Reed's yellow dent variety, was mature and well developed. The two colors blended perfectly.

WIFE OF BARONET SEEKING DIVORCE

Lady Hatfield, Wickersham's Sister, Said to Be in Nevada.

NEW YORK, June 25.—The Evening Sun prints this cablegram from London:

"There is a rumor current here and credited to an authoritative source that Lady Hatfield, wife of Sir Robert Hatfield, is in Nevada seeking a divorce or a separation. When seen by a correspondent of the Evening Sun Sir Robert positively refused to either affirm or deny the story; in fact, he refused to discuss it."

Lady Hatfield was an American at the time of her marriage and a sister of George W. Wickersham, former attorney general.

George W. Wickersham, brother of Lady Hatfield, was informed while at his office of the foregoing cable, and was asked if it were true that his sister was in this country for the purpose of getting a divorce, with the ultimate object of marrying again. He said:

"I have no comment to make."

ROPER WILL NOT DIRECT M'ADOO CAMPAIGN

SAN FRANCISCO, June 24.—Daniel C. Roper, former internal revenue commissioner, today wired McAdoo supporters that he could not come to San Francisco to take charge of the campaign to force McAdoo's nomination.

Roper had been urged by McAdoo supporters to come here after it became certain that McAdoo's refusal to become a candidate had not killed the boom in his behalf.

FATHER MISTAKES SON FOR THIEF—KILLS HIM

RYAN, Okla., June 25.—To be mistaken for an automobile thief and killed by his own father was the fate which overtook Cliff W. Trice, a railroad fireman, here a few nights ago. The elder Trice, a deputy sheriff, collapsed when he learned that the man he had shot was his son. He was taken to a hospital in a serious condition.

is possible that some of the dead may have been buried secretly.

There has been practically no vehicular traffic in Londonderry since the fighting began last Saturday, except for hearses.

Armored cars were used by the troops for the rescue of women and children in the battle zone.

FEAR ENTIRE IRELAND MAY JOIN SINN FEIN

LONDON, June 25.—The position at Londonderry is going from bad to worse, according to the Belfast correspondent of The London Times, who adds:

"The gravest aspect of the position is that Derry may speedily become a mere incident in a much larger setting. For three days rumor has stated that Sinn Feiners from the northwest were concentrating for an attack on the city—and it is not improbable. "For the first time very large bodies of lawless elements in the city possess deadly weapons and plenty of ammunition. For the first time the whole city is involved, and not merely

a restricted area, where the factions live. For the first time the principal victims have been innocent people, who have been shot down, not for political or sectarian reasons, but in wantonness. The lawless element over a wide area is being drawn into the conflict, while those who hitherto have held aloof from any battles are gradually but surely coming to the conclusion that they must take up weapons."

The proceedings at Derry possess every element of civil war, without any interference worthy of the name from the forces which the government is supposed to control.

"The descent of Sinn Feiners en masse from the countryside, answered or preceded by a large movement in Ulster, either of which seems possible at any time, will immediately precipitate matters in such a way that the military forces may be engulfed. "Unionists are said to be pouring into the city bent on vengeance, but there is also an exodus of people from the city by road and train. It is reported that artillery has arrived."

In another dispatch the Belfast correspondent of The London Times says it is stated on good authority that as soon as the necessary reinforcements have arrived Londonderry will be surrounded and disarmed. A destroyer entered Lough Foyle yesterday afternoon and took a position off the city. Newly arrived troops were welcomed enthusiastically by the population.

The hospitals in Londonderry are filled with wounded, mainly sniping casualties. The newspaper staffs are besieged most of the day in their offices. Movement is comparatively safe in one or two districts, but many of the residents in the worst areas have had to leave their homes at the mercy of the mobs, and there has been some looting.
